

Description

- Protect circuits against over-load & short circuit faults
- Provides isolation to down-stream circuits

Technical data

- Conforms to IEC 60898-1
- **CE marking**
- Ratings – 6A to 40 A
- No. of poles - 1 Pole + switched neutral in one module
- Tripping curve - C

Features & benefits

- Compact design, SPN MCB in one mod (17.5mm) only
- Switched neutral provides complete isolation to down-stream circuits
- Line-load reversible
- **RoHS compliant, “Green” product**
- Wide range of accessories are available

Connection

- 16sq mm rigid cables
- 10sq mm flexible cables
- Prong type busbar.
- IP2X terminals
